

Young Toddler Room

Children will be provided with breakfast, lunch, and a snack following a set daily schedule. Children will participate in age-appropriate social play, music time, reading time and arts and crafts aligned with our center's weekly themes. During warmer weather, children will enjoy outdoor playground time, with water play offered during the summer months. Our classroom is equipped with an in-room bathroom to support independence and routine. Teachers will work closely with families to support potty training when parents feel their child is ready to begin transitioning out of diapers.
